STATEMENT OF OBJECTS AND REASONS

A sizeable number of the people of Pakistan are living in abject poverty and are deprived of the basic necessities of life. In the daily life, we see all over the country, hundreds of citizens are losing their patience to fight with the poverty and uncountable sad incidents are taking place in the country.

Promotion of social justice and economic well-being of the people of Pakistan is a constitutional duty of the government but unfortunately successive governments have failed to ensure that all members of the society have at least necessary wherewithal for survival, particularly food and medicines. Hunger and starvation have created situations where some of the people have in desperation committed suicide and even taken lives of their kith and kin.

In above difficult circumstances citizens have no platform where they can raise their voice and get immediate relief because state has not made any mechanism for such relief.
